

Pre-Apprenticeships

Pre-apprenticeships, otherwise known as traineeships are a perfect solution for anyone who is 16-18 years old and has just left school, but do not feel quite ready to go straight on to a full apprenticeship or sixth form.

Through valuable work experience, students can gain knowledge and understanding of the workplace, and go on to undertake a full apprenticeship in a sector of their choice.

- Flexible education and training programme with work experience
- Pre Apprenticeships can last from 6 weeks to 12 months and are for young people aged between 16-24, who do not have a Level 3 qualification
- A work experience placement that lasts for at least 70 hours with a guaranteed exit interview and reference on completion of the work placement
- Individually planned programmes, which will include English and maths if required. Vocational qualifications can also be included.

What are the benefits?

- Young people will gain valuable employability skills and relevant work experience
- Employers will have the opportunity to shape the skills and experience of young people from their local community, helping their business to develop a loyal and talented workforce
- Working with trainees will give experienced staff the opportunity to develop their skills in mentoring and coaching young people
- Expert professionals supporting you to find an Apprenticeship or full time job on completion

At Achievement Training we can guide you through your journey... For more information on apprenticeships take a look at our website.
